TAILOR-MADE PRODUCTS:

Cutting
Roll-cutting of adhesive-tape, double-sided adhesive tape, rubbers and foams is perform from rolls having a maximum width of 1600 mm up to a minimum width of 3 mm. This solution ensures fast and efficient delivery and optimizes the yields of the master-roll.

Punching
We produce punched parts for the most varied applications and on a wide range of products. Punched parts can be supplied on rolls, in sheets, in single pieces, entirely cut or half-cut with facilitated removal of the liner.
Endless Possibilities to Create
A Customized Idea

Coupling
Various double-sided adhesives are coupled with siliconized paper to produce sheets cut to various sizes. Felts, fabrics, rubbers, foams, polycarbonate sheets and other plastics are also bonded with various types of double-sided adhesive that can then be cut and punched on request.

Selection
We offer a large stock of materials available in our warehouses. Our selection includes all products distributed and marketed. We manage customized stocks of cut or punched materials on request.
